MEMORANDUM FOR: Executive Director - Comptroller
SUBJECT : "CIA Operations Center"

1. On 3 August, Mr. Richard Lehman of OCI gave me a briefing on the current status of the "CIA Operations Center". The briefing went well and I am convinced that once it is completed and fully operational, the Center will be a valuable asset for the Agency.

2. In our discussions during the briefing, we made reference to this Directorate's FMSAC Center which is manned on a twenty-four hour basis, and the OSA Center, which at mission-time, is also operated on a twenty-four hour basis. We expect that the current alerting procedures in both of these DD/S&T installations will remain unchanged; that is, items of a critical or significant variety are reported to the O/DD/S&T, the Watch Office, and in turn to the O/DCI.

3. In the interest of rendering the most direct and prompt service to the Agency, I advised Mr. Lehman that for the time being, at least, I wished to be this Directorate's point of contact with the CIA Operations Center and have assumed the personal responsibility for keeping the Center advised of my whereabouts at all times.

SUBJECT: "CIA Operations Center"

4. In the meantime I have asked the members of my staff to make a thorough review of the watch procedures within the Directorate, and prepare for my approval a plan which will provide for the most prompt and effective means of communications among our senior officials.
